

Comment: I worked with the TA on this lab and my computer wouldn't run my code. I used Replit to run it instead (that's why the code font looks a little different).

Run 1:

```
Welcome to quiz grade averaging!
```

```
Enter the file name: grade
Error opening. Try again.
```

```
Enter the file name: grades.txt
```

```
Menu:
```

```
0. Exit
1. Display average
2. Display grades
3. Add new grade
Enter choice: 2
```

```
Grade 1: 90
Grade 2: 80
Grade 3: 70
Grade 4: 60
```

```
Menu:
```

```
0. Exit
1. Display average
2. Display grades
3. Add new grade
Enter choice: 4
```

```
Invalid menu option. Please try again.
```

```
Menu:
```

```
0. Exit
1. Display average
2. Display grades
3. Add new grade
Enter choice: 3
```

```
Enter a grade to add (0.0-100.0): 95
```

```
Menu:
```

```
0. Exit
1. Display average
2. Display grades
3. Add new grade
Enter choice: 2
```

```
Grade 1: 90
